September Friday 7 – Saturday	15	Adelaide Royal Show J Russack Barb Kemp RA&HS: Schedules or Enquiries	8344 7659 GCSA 8351 1676 FASA 8210 5211 RA&HS

*May be subject to change. Usually, contact listed is Secretary of Club/Society or Show Manager.
Show Information available from contacts as listed above or (for GCSA shows) from
GCCFSA Secretary (Nell Evans, 8449 5880)*

*For most shows, entries close approx. 1 month prior to show date listed above
("Royal" was 24 June in 2011—schedules and information on showgrounds web site).*

*Any available details and links to schedules are published on the web at
GCCFSA - <http://users.chariot.net.au/~gccfsa> : FASA - <http://www.felineassociationsa.com/>*

Please note: GCCFSA does not carry out inspections nor have a cattery accreditation scheme, and we cannot accept responsibility for anyone advertising in this directory. If you are dissatisfied for any reason, we suggest you first contact breeder or provider of service. GCCFSA has no power to act in matters between breeder and buyer.

Note: There several other breeds of pedigreed cats for which we have no listing, and we have other reputable registered breeders who prefer not to advertise in this Directory.

When contacting any of these breeders, please mention the Breeders' Directory

Join a Cat Club!

The best way to learn about cats and cat care, and have fun and fellowship, is to join a Cat Club, whether all breeds or specialist.

You will be made welcome whether your cat is pedigreed or unpedigreed, or even if you don't own a cat but simply love them, and want to spend some time with others who share your feelings about cats.

We have several affiliated Cat Clubs in the metropolitan area, and one in the country. One of the following Clubs could be just right for you.

AFFILIATED CLUBS & CONTACTS

CAT FANCIERS SOCIETY OF S.A. INC.
Miss Judith Russack, 32 Farrant Street,

DOMESTIC RESCUES

MOGGIHAVEN
Liz & Tiff Rescued
Kadina, 5554 strays
E-mail:
kitties@moggihaven.com

The above prefix is registered but not used for breeding. It belongs to couple who take in local strays. These "foster parents" are always seeking good homes for kittens born to free roaming cats in their neighbourhood, as well as adults which they have caught and domesticated.

FOR UNPEDIGREED CATS: Apart from the above, we suggest you contact The Animal Welfare League and the RSPCA. There are still not enough homes for all animals received by these organisations. If you aren't fussed about ancestry, they often have lovely pets for sale, already wormed, vet checked, vaccinated, micro-chipped and desexed when you adopt. Cheaper than getting a "give-away" then paying for it all.

BREEDERS' DIRECTORY

Pedigree cat breeds are grouped for judging, and each group has it's own Registrar to document registrations, transfers, etc.

ALLOWABLE OUTCROSSING

Below &
Page 9

GROUP 1

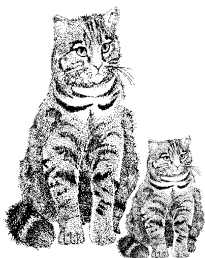

In the Longhair group, Exotics may be mated with Persians, to maintain and improve the Persian "type" characteristics in the Exotic breed and introduce 'new' coat colours and patterns and all resulting kittens of these matings are "pedigreed".

(An Exotic, in effect, is a short-haired Persian.)

Long coated kittens from such matings are Persians, but shorthairs are registered Exotics.

Both breeds come in a huge variety of coat colours and patterns. Coat patterns include solid, tortoiseshell, shaded (chinchilla, shaded silver, pewter, cameo, golden, smoke, etc), pointed (colourpoints - see note about himalayan gene under group 2), tabby, patched (bi-colour, torti & white, persian van).

No inter-mating between Group 1 breeds (other than the above) is approved.

Information from this booklet is now reproduced on the Internet, so updates are very welcome.

Interested in showing cats?

Contact our Secretary or Assistant Secretary/P.R. Officer (see page 15) Nell & Judith will be very happy to tell you what's involved and how to begin, whether with pedigreed or unpedigreed kittens or cats.

We sincerely thank

breeders who have shown support for The Governing Council of The Cat Fancy of South Australia Inc. by paying to advertise in this directory.

Cattery Prefixes listed in this booklet are registered with GCCFSA. Whilst all of these breeders are registered with us, a listing in this directory shall not be classed as a recommendation for any or all of them. The breeding catteries are run by their individual owners and may all differ in management practices and procedures.

Governing Council is a controlling body in regard to breed standards, documentation of litters, registrations & transfers of ownership, verification of Pedigrees, and Show Rules etc, but an advisory body only in regard to cattery management and related matters. Because we have no power to legislate to control registered breeders, we cannot accept any responsibility for their activities.

The Governing Council of The Cat Fancy of South Australia Inc. is recognised and respected Nationally and Internationally, and is affiliated with the Australian Cat Federation Inc., which is a core member of the World Cat Congress.

GCCFSA breeders & exhibitors (all groups)

Some information on registrations:

- "Registration pending" means that application, completed correctly, is in the hands of the registrar, with all necessary accompanying documents.
- Thermal copies are unacceptable
- Pedigrees on forms to show all breeds and registration numbers.
- Names of colours on registrations to be as in ACF Standards book.
- Cats brought in from other bodies must be transferred to GC before their kittens can be registered.
- Exhibitors are expected to read and follow show rules, registration rules and the Exhibitor Code of Ethics

When contacting any of these breeders, please mention the Breeders' Directory

DID YOU KNOW?

Most cat shows have classes and prizes for unpedigreed cats or kittens, and adults can earn titles, very similar to pedigreed cats. A.W.L. and RSPCA 'adoptees' especially welcome, with a side class of their own..

CODE OF ETHICS FOR BREEDERS / OWNERS.

1. Breeders breed with the intention of improving the standard of *his chosen breed, and not for commercial purposes.
2. Not knowingly sell or transfer from *his care, any cat/kitten to commercial wholesalers, retail pet dealers, or directly or indirectly allow a cat/kitten to be given as a prize or donation in a contest of any kind.
3. The cat/kitten shall be in the best possible condition and health before it goes to a new home.
4. No kitten should be sold at less than twelve (12) weeks of age.
5. As far as possible it should be free from internal and external parasites.
6. All litters and kittens of a litter should be registered with the Governing Council of the Cat Fancy of S.A. Inc.
7. The cat/kitten should be immunised against Feline Infection Enteritis and Feline Respiratory Diseases - the final effective Feline Infectious Enteritis injection for a kitten being given at not less than twelve (12) weeks of age.
8. Transfer of a cat/kitten must be effected within three months of gift or sale to a new owner. This is the responsibility of the Breeder.
9. Transfer may be made for "Breeding" or "Non-Breeding". "Non-Breeding" means that should the cat produce kittens, none of its progeny can be registered, the cat is meant to be desexed. It is the responsibility of the breeder to explain to the new owner the meaning of "Non-Breeding" status.
10. Furnish the new owner with details of diet, and any information that will ensure the cat/kitten fits into its new environment with minimum stress.
11. Ensure that the purchaser of a stud male is made fully aware of the care, responsibility and the standard of facilities required to keep such a cat.
12. Not permit matings between registered and un-registered animals.

**Note: "his" includes "her" and "their".*

For the last 15 years new breeders have signed an agreement to abide by the above code as a condition of being granted a prefix. Previously breeders followed it voluntarily (and still do).

Most of the breeders in this directory are happy to give you information about their breed

BREEDERS' DIRECTORY

Can we help you?

Do you know what to look for when choosing a kitten?

What is the best way to introduce a new kitten to your home?

Did the breeder of your kitten advise you about feeding, worming, grooming, vaccinations, flea control, desexing, identification and other matters?

Are you a RESPONSIBLE PET OWNER, concerned about giving your pet the best possible care without damaging the environment or upsetting neighbours?

Or do you need more information to help you to be a good owner?

Do you want to know where to buy a pedigreed kitten, from a registered breeder?

..... and why buy from a REGISTERED breeder?

Which breed of cat has the temperament that would best suit your household?

Do you want to find out when and where the next cat show will be held?

Are you interested in showing your cat, whether pedigreed or "Domestic"?

Would you like to know more about exhibiting in cat shows?

Are you thinking of becoming a breeder, and in need of advice or information?

We can provide answers, advice or information on all of these topics, and more.

(Reprinted from our home page at <http://users.chariot.net.au/~gccfsa>)

For those with Internet Access:

Australian Cat Federation (Inc.)

has a web site, which has links to affiliates. URL is <http://www.acf.asn.au>
From there you can link to information about ACF: its aims, history, Affiliates, Show dates throughout Australia, News, results of last 'National' Show & information about the next, list of all ACF recognised Cat Breeds & Colours, the official ACF Breed Standards, Judges, "Supremes" of all National Shows, ACF international affairs, Resources Links for students, cat breeders and owners, Kids Page, Awards & Criteria (with application forms), and lots more.

There's also a yahoo e-group for members of all ACF Affiliates:
<http://groups.yahoo.com/group/acfinc/>
GCCFSA members are eligible.

GCCFSA's web address is
<http://users.chariot.net.au/~gccfsa>
(includes most GC forms for download)

ORIENTALS — See Page 12

Miscellaneous information to help people who phone Nell
to ask if "variants" are pedigreed, and are curious about
when "cross-bred" is "pure-bred" . . . and pedigreed.

ALLOWABLE OUTCROSSING

Below &
Page 4

GROUP 2

All Group 2 breeds are developed from Siamese. Unlike the Siamese, who have colour only at the 'points', Orientals are fully coloured. If the Oriental parent carries the recessive 'himalayan' gene that restricts colour to the points, and the dominant gene for full colour, matings between Siamese and Orientals can produce fully pedigreed kittens of both of these breeds, that are eligible for full registration.

By careful selective breeding, over many generations, the gene for long hair was introduced into these two breeds resulting in the 'longhairs' — Balinese (colour at points) and Oriental Longhairs or Javanese (fully coloured). Their coats are silky, needing very little attention.

Occasionally 'variants' are offered for sale by breeders of the 'longhairs'. These are fully pedigreed kittens that are eligible for registration. They result from mating a longhair to a shorthair or variant, or variant to variant (both approved matings to improve desirable features in the long-haired breeds). If the kittens inherit the recessive gene for long hair from both parents, they will have long fur. If they inherit it from only one parent, their fur will be short and they will be known as variants. Their pedigrees and registration papers will be marked 'carries longhair'. The gene for short hair is dominant so it cannot be carried without its effect being seen.

GROUP 3

The breeds in the Foreign Shorthair Group are many and varied, and each is very distinctive from the others. Coat colours and patterns, size, shape, coat length and texture (there's even a wavy coat) and temperament differ from breed to breed.

Matings between breeds is not usual, except for Abyssinian to Somali, in Somali breeding programmes. (The introduction of the longhair gene into Abyssinians follows the same genetic principle as described under Group 2 for Siamese and Balinese.)

Please let breeders know that you appreciate them taking the trouble to provide details
(and paying a small fee) to provide this breeders' directory for your convenience ...

Single Kat Cube

Double Kat Cube

Triple Kat Cube

Secure a Kat[™]

Custom Built Cat Runs & Enclosures Australia wide.

Secure a Kat offer affordable, individual purpose built cat enclosures. **Secure a Kat** runs and enclosures are installed any size and shape, attached or freestanding. Side of house, balcony, pergola, part or complete yard, gardens. Manufactured from UV stabilised, 20mm Black Polyethylene netting **Secure a Kat** netting is autoclaved under tension to improve knot stability and eliminate sag. Containing maximum UV inhibitor, compared to competitor's thinner products, **Secure a Kat** netting is made from thicker strands to resist abrasion, improve wear and extend UV protection. 10mm snake deterrent netting is also available.

Proudly Australian owned and operated,
Secure a Kat is not a franchise, we do not sub-contract.

*R.S.P.C.A. Recommended **Secureakat** now installs Australia Wide.*
For an obligation free quote, please email your full address, contact number, rough measurements and a photo of the area you want to enclose to sales@secureakat.com.au.

For customers wishing to install their own systems we supply **Secure a Kat D.I.Y.** netting, wires, components, access zips, hooks, screws, guidance and advice to build a safe environment for your loved one. Download **Secure a Kat D.I.Y.** form www.secureakat.com.au.
